TSCA Toxic Substances Control Act Reporting

5 persistent, bioaccumulative and toxic (PBT) chemicals
U.S. Environmental Protection Agency (EPA)

The U.S. Environmental Protection Agency (EPA) has published a new rule under Section 6 of the Toxic Substances Control Act (TSCA) on 05.02.2021, according to which 5 PBT substances are to be banned in products in the USA in the short term, taking into account various exemptions. The list of substances that will be banned for import, processing (manufacturing) as well as sale but also in products for the most part from 08.03.2021 in the USA is as follows:

1. PIP (3:1) - phenol, isopropylated phosphate (3:1) (CAS 68937-41-7)
> the use will be completely banned from July 6th, 2021!
2. DecaBDE - decabromodiphenyl ether (CAS 1163-19-5)
> the use will be completely banned from March 8th, 2021!
3. HCBd - hexachlorobutadiene (CAS 87-68-3)
> the use will be completely banned from March 8th, 2021!
4. PCTP - pentachlorothiophenol (CAS 133-49-3)
> the use will be prohibited from March 8th, 2021 at a concentration of more than 1% w/w!
5. TTBP - 2,4,6-tris(tert-butyl)phenol (CAS 732-26-3)
> the use is prohibited from January 6th, 2026 at a concentration of more than 0.3% w / w in containers of less than 35 gallons!

We, the signees confirm to you that...

...our products and their packaging supplied to these customers DO NOT contain TSCA substances.

...the products and their packaging below contain TSCA substances.

Product/Article	Product-/Article-No.	CAS Number (hazardous substance)	Typical concentration

Alternatively, you can send us a list of the products that contain TSCA substances by email!
